

# Application Form 2025 Nitori International Scholarship F

\*Language: Priority 1 Japanese, 2 English

\*Submission format: Handwriting will not be accepted. Enter the data in EXCEL, save and submit in PDF format.

First name (English)	CUT	middle name & Family name (English)
First name (native language)	CUT	middle name & Family name (native language)
Gender (F/M)	FEMALE	Birthday
Postal code (No hyphen)	16515	address
Phone number (No country code)	83872783097	E-mail (Personal mail address, not university's one)
Entrance date	2022	Faculty
Expected graduation date	2026	Department
Year of university	Fourth (4th) Year	
1) Reason to apply for scholarship	I am applying for the Nitori International Scholarship because it will allow me to pursue my academic journey without placing additional financial pressure on my family. I believe that becoming part of the Nitori International Scholarship program will provide me with valuable opportunities for personal and professional growth.	
	I have strong optimism and enthusiasm to grow both personally and professionally through this program. I believe that this scholarship will provide me with valuable opportunities for personal and professional growth.	
2) Research subject	My recent research examines the political dynamics behind the increasing influence of religious mass organizations, particularly Muhammadiyah and Nahdlatul Ulama. I argue that this policy is not merely an economic initiative, but also a strategy to influence civil society groups during a period of national political transition. My research analyzes how the state uses legal mechanisms to integrate boundaries between religion, the state, and economic interests. The study demonstrates how a state policy can function as a tool for public participation and accountability in natural resource governance.	
3) Career paths after graduation	After graduation, I plan to pursue a career in the field of Environmental Science, specifically focusing on sustainable development and environmental justice. I am particularly interested in working for an organization that upholds ethical practices, transparency, and environmental responsibility. With my criminology background, I aspire to contribute to preventing environmental crimes and supporting the development of fair and sustainable systems. In line with my academic interests, I would like to work in a field such as environmental law or environmental policy analysis.	
Experience and activities (Volunteer, Internship)	Experience/activities	
	INTERNSHIP	Balai Penilaian Kompetensi, Ministry of Education and Culture Month: January 2024 - June 2024 Role: Internship as Risk Management Intern

Membership, student organization etc..)	ORGANIZATION	Criminology Student Association Welfare Division Staff
